

REMARKS

The specification has been objected to as requiring correction to the abstract. A replacement abstract has been submitted. No new matter has been added.

Claims 1 and 3-5 have been objected to due to informalities. The claims have been amended accordingly.

Claims 1-2 and 4-5 have been rejected under 35 USC 103(a) as unpatentable over Mo in view of Herkersdorf. The rejection is moot in view of the incorporation of claim 3 into claim 1, since claim 3 is allowable by the Examiner.

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue. If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no.449122008400.
